- Proficiency in MS Excel, AutoCAD, Risa, RetainPro
- Strong written and verbal communications skills
- CAD Proficiency (Revit Proficiency a plus/but not required)
- Engineering experience in residential construction

ABOUT YOU WORKING WITH US

We are seeking an ambitious engineer for this **unique opportunity**. You will **grow quickly** through an **advancing career at DMSE**. Joining our team will place you in **this key role**. The position requires having experience working as part of a team in a professional environment. Our structural engineering firm is client focused~ and we maintain an atmosphere of collaboration and colleague support. We are looking for a positive, responsible, conscientious, and dependable individual. DMSE will work with you to adjust our skills collaboratively to the methods and needs of our practice. We want to build and maintain the success of our firm with you. We are a small firm -- working on extraordinary estate projects. DMSE is offering a competitive salary in a very beautiful, pleasant, and friendly working environment.

RESPONSIBILITIES:

Perform analysis and design of structural systems for all types of buildings and materials using respective building codes. Engineer construction documents, calculations, and drawings under the direction of, and in coordination with the principal structural engineer. This will include foundation design, framing layout and design; as well as understanding the submittal process; and providing seamless drafting support as needed. We have a dedicated structural drafter, but you will also provide some drafting for your assigned projects. You will be conducting site visits and construction administration duties under the guidance of the principal engineer with PE and SE licensure.

LANGUAGE SKILLS

- Read and interpret technical and documents and write routine e-mails and correspondence.
- Communicate effectively in writing and speaking, conveying information effectively.

BASE HOURLY RATE: \$36--\$45/hr to start DOE
